May 1, 2020

To Our Valued Boling Vision Center Guests & Community,

We wanted to take this opportunity to say *THANK YOU* for the support and love you've extended to our Boling Vision Center Family over the past 6 weeks. As many of you know, on March 20, 2020, we made the difficult decision to suspend all non-emergent/urgent eye care services during the COVID-19 pandemic in an effort to help flatten the curve and to slow the spread of this developing virus. Throughout these unsettling times, Boling Vision Center has continued to serve our Community's emergent and urgent eye care needs in an effort to care for vision emergencies and eye injuries, thus reducing hospital emergency room and urgent care center visits.

Please know that we have done our absolute best to remain a "constant" for our community, as well as our BVC Family, over the past 6 weeks. Thank you to everybody who reached out and interacted with us, all who participated in our virtual LASIK and Cataract consultations, and those who sent us messages of support and appreciation. Your messages definitely kept our "eye on the prize" and further encouraged us to identify new and innovative ways to serve our community throughout the remainder of this pandemic and beyond (i.e. Virtual Visits, Drive-Thru Testing, Patient Apps, etc.).

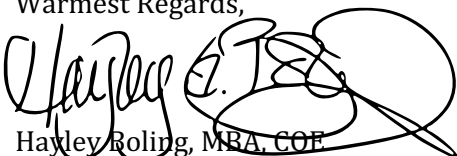

With the above in mind, we are happy to announce that the Boling Vision Center Family will officially be back in action and ready to safely and responsibly serve our community beginning Monday, May 4th. Although some things may look and feel a little bit different than you've experienced in the past (some processes and services have been modified based on expert recommendations as well as federal and state coronavirus guidance), please rest assured that the same AMAZING team of vision experts will still be the ones protecting, preserving and enhancing your precious gift of sight with Integrity, Compassion & Excellence.

To learn more about the extraordinary efforts the Boling Vision Center Family is employing to mitigate risks and to keep our BVC Family and beloved Guests/Patients safe, please visit the COVID-19 Update page of our website at BolingVisionCenter.com/COVID-19-Update/. We appreciate your kindness, patience and understanding as we perfect these new processes, and we are beyond excited to SEE you and to SERVE your eye care needs moving forward.

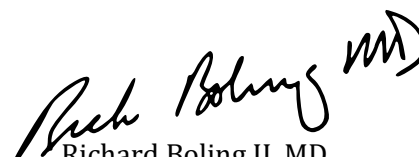

In closing, please know that Boling Vision Center is proud to be a local medical practice that has been compassionately serving this community for 60 years! Because we live, work, and play (when it's safe to do so, of course) alongside each of you and your families, please remember that your patronage, friendship, love, and continued support (now more than ever) will help us continue to serve this community for another 60+ more!

Stay safe and healthy, my friends!

Warmest Regards,

Hayley Boling, MBA, COE
